**Subject:** 12/11/12 Complaint re: LEAKING BRINE TANKS---response from DEP

Hi Bob,  
This is what happens when the Taxpaying Citizens Of The Commonwealth report problems to DEP.  
Please Help Us.  
Thank You

**Subject:** 12/11/12 Complaint re: LEAKING BRINE TANKS

Ex. 6 - Personal Privacy

The Department inspected the alleged leaking brine tanks on the Ex. 6 - Personal Privacy site, Meshoppen Road, Dimock Township, Susquehanna County, as reported by you via a complaint lodged on Tuesday 12/11/12. Be advised, the inspection of the site by the Department on Wednesday 12/12/12 found no imminent nor verifiable impact to the environment. The Department has determined that the conditions described by you in the complaint did not in any fashion pose any potential physical or environmental harm. Complaints of this nature and the Department's response to this type of complaint is a loss of time and expense for the Department, time and expense that is better spent performing standard work responsibilities, and when/where necessary, responding to true and valid environmental problems. The Department will evaluate future complaints lodged by you to determine if the nature and description of the complaint is verifiable prior to any further response. Lastly, the Department viewed the YouTube video posted by you clearly displaying your presence at the site. For your own personal safety and well-being, it is recommended that you not visit sites of this type, walking among the operations occurring in a nonchalant manner, traversing in and around contained areas, climbing steel steps/ladders, etc. This behavior is both a potential safety risk, as well as possibly grounds for a citation of trespass by the owner and/or operator.
